A user named "Dragongirl" did a Twitter poll in June 2017 asking users their thoughts on the matter. Of her followers, 46% responded that they think that there are not enough female employees at Roblox and 64% responded that they think Roblox should have less white males working for them.

Here is the link to MyRoblox. You can also find the very informative "Reddit Facts" page on the Roblox Help site as well, although it is no longer up-to-date. EDIT: This also applies to other games like Robokill, Minecraft and Terraria. Just remember where you find out important information. ;) Last edited by alyssa2789; 05-31-2019 at 05:44 AM .

Games on ROBLOX have many different settings, including combat, customization settings, scenery design, etc. Several games that are featured on ROBLOX have different levels of rules, from the extremely basic "No Rules" or "Give and Take" settings to "No Kill" settings. The more difficult options create a more immersive experience for the players. For example, some games' settings can only be changed by the current owner, while other games have custom-made tools that allow players to modify it at will.[35]

Now, I am going to show you how to get free robux for roblox with this method. There are a lot of methods that can be used in order to generate free robux and I have listed a lot of them in this article so that you can compare them and pick the best one for you.Once you have picked the best free robux generator, then just click on it and download it. There are a lot of different programs that will be available for your choice. Scroll down the list until you find your desired program. In my case, I picked the "Rosetta Brothers Robux Generator" by clicking on it and downloaded it from Google Play Store.

This may sound like a simple bug but there are so many people who want this fixed because it makes them very mad. When they are in a group with someone who they hate and they click the chat head and they try to type something and it doesn't show up. I know that there should be a way for them to see what they were typing but there is not. That's the only thing that bugs me about this bug because it makes people mad. If you want these bugs or glitches fixed or changed please comment down below.
